& INFLUENCES**

NOW TRENDING: FREESTANDING FOCUS

Striking in form and designed for function, modern freestanding tubs take center stage as the focal point of any spa-inspired sanctuary. Make a bold and thoughtfully-coordinated statement with the selection of an equally exceptional tub filler.

TALKING POINTS

The KOHLER KONNECT platform revolutionizes our daily rituals with voice command and motion control. Wanna shower? Speak up and the DTV+ system can adjust the temperature and pressure to your preset liking. Prefer a bath? Give a shout. (The water will shut off thanks to the PerfectFill kit.) And, yes, you can flush the toilet with just a word or a wave. Additional smart features include seat warmers and dimmable medicine-cabinet lights. In the bathroom of the future, we'll all be talking to ourselves in the mirror.
