PLAY WITH PATTERN

Though Trevor and Curtis wanted to keep the principal bedroom serene, they couldn't resist a few graphic textiles. "We still needed a punch — we love mixing patterns!" says Trevor. A custom diamond-coffered ceiling adds another textural dimension. <PLAY WITH THE UNEXPECTED

Though drapes are an unusual choice for a bathroom, the designers wanted to soften the hard edges of the space. Marble-look porcelain tiles on the floor and walls are luxe but low-maintenance. This room is a favourite end-of-day retreat, says Curtis. "I like a long soak in the tub catching up on my favourite TV shows — it's like a spa day every day!" **Tub**, Wetstyle; **stool**, Arteriors; **vanity design**, Atmosphere Interior Design; **vanity fabrication**, Rêd! SASKATOON STYLE

Trevor and Curtis share their favourite local hot spots.

MODERN ART The Remail Modern is Saskatoon's new art gallery with a 400-plus collection of Picassos. "The gallery itself is an architectural gem and is currently on many 'it' lists all over the world — it's bringing amazing attention to our city," says Curtis.

COCKTAIL CULTURE Head to Flint Saloon for a hand-crafted libation with a twist, such as a Berry Saskatoon Martini. The cosy, relaxed lounge has an industrial vibe with partially exposed brick walls and dim lighting, perfect for a mellow gathering.

LOCAL FLAVOUR Make a reservation at Little Grouse on the Prairie, founded by *Top Chef Canada* winner Dale MacKay. The rustic-modern spot serves Italian cuisine with a focus on Prairie ingredients.
