WETMAR BiO™

All WETSTYLE bathtubs, sinks and shower receptors are made of WETMAR BiO™. An industry first, WETMAR BiO™ is an eco-friendly thermo-insulating material made primarily from a mix of Mother Earth's natural ingredients – soy and mineral stone. WETSTYLE has pioneered a proprietary and code-compliant recipe that uses soy and vegetable extracts to replace the petrochemical-based resins in heavy use by the industry. In the spirit of Pure Design and Pure Craftsmanship, WETSTYLE is proud to offer the industry's purest and most environmentally friendly material.

Naturally stain-and bacteria-resistant and harder than acrylic, it offers a non-slip surface, superior strength and increased heat insulation. WETMAR BiO™ is available in True High Gloss™, Matte and Dual finishes.

WETSTYLE, AN ECO - FRIENDLY CHOICE

WETSTYLE is staunchly green-minded in both its products and practices. WETSTYLE's low-energy footprint can be attributed to, among other things, the company's unique artisanal manufacturing process by which products are created almost entirely by hand from start to finish. WETSTYLE's products are hand-forged locally in Montreal, Canada, ensuring that fuel and transport costs are a fraction of volume-based manufacturers who outsource production to overseas factories. Woods used in WETSTYLE's furniture collections are harvested from renewable forestry, and the company's scrupulous efficiency in production enables a waste and scrap rate of less than 1%.

High-quality materials and timeless design ensure product longevity and durability, and ease of repair minimizes waste and energy consumption.

THE LAB COLLECTION

Keyword: Pragmatic

Lab bathtubs feature finely beveled details and subtle curves. They are also intentionally inclined for the comfort of those who enjoy reading and relaxing in the bath. Designed to meet various space requirements, the bathtubs come in freestanding or wall-adjacent versions. With the freestanding option, the bath becomes a focal point in the room, and with the wall-adjacent version, a reduced footprint saves space for maximum freedom. Its wide deck is convenient for storing personal care products without clutter.

The Lab collection has several washbasins to match a variety of layouts and tastes. Models include Lab Round sinks whose curves match the collection's bathtubs and Lab Square sinks that integrate seamlessly with Stellé pedestals to form a minimalist and space-saving set.

Made from WETMAR Bio™ and available in True High Gloss™, Matte Apollo White, Matte Black or Matte Grey finish.

THE MOOD COLLECTION

Keyword: Comfort

An invitation to dream... the Mood bathtub is based on a pair of offset ellipses resulting in a design that says fluidity and comfort. Its silhouette creates an air of relaxation in the bathroom.

In addition to its aesthetic qualities, Mood provides maximum comfort thanks to its reclining dual backs: a sitting position that is particularly conducive to reading, and a reclined option for pure relaxation. The elegant simplicity of the Mood blends seamlessly with both contemporary and traditional interiors, with its play of shapes creating a perfect balance between a well-anchored base and more refined curves. A thicker rim on one side adds to the originality of the design and also doubles as a storage shelf for body care products.

Mood is handcrafted in WETMAR BiO™, a robust, non-slip, thermo-insulating eco-material.

Available in Apollo White True High Gloss™ or Matte, Matte Black or Matte Grey finish.

THE FEEL COLLECTION

Keyword: Sensation

Created from an innovative, high-density composite material that evokes the appearance of natural stone, the Feel collection emphasizes tactile pleasures underfoot. The uniquely pleasing texture of this line of showers comes from a manufacturing process that creates the appearance of slate and concrete in high definition.

These streamlined bases are suitable for all bathroom types as they can be cut at the factory or by the installer directly on site; a major asset when adapting to non-standard dimensions and specific configurations, such as bypassing a column.

The matte finish paired with Feel's clean, sleek look awakens the senses and heightens the experience of relaxation and rejuvenation in the shower. The collection is available in neutral shades of white, grey and black.

THE TULIP COLLECTION™

Keyword: Freshness

The highly archetypal TULIP bathtub carries a classic form into the second millennium, keeping the best of both worlds.

This journey celebrates the sensuality of spring as the first blooms burst forth from the ground, their silky petals unfurling into delicately curved tips.

Organic in inspiration, the flawlessly smooth volume shoots up into two distinct angles at each end, one rising slightly above. Opening like a tulip, an exquisite curve crowns the tub, inviting the body to become one with the form.

THE COUTURE COLLECTION™

Keyword: Refinement

Dipping one's foot into this tub is like slipping into the folds of haute couture design. The COUTURE collection induces the bather to immerse willingly in a graceful design dedicated entirely to sensual pleasure.

The bathtub and vessel sink draw their inspiration from the fluted perfection of the seashells that dot the ocean floor. The shape, a splendidly smooth interior and a gently faceted exterior, is modernity made material. In this delicate origami, the comfort of the seated position is rivalled only by that of the more pronounced slope.

The innovative spirit of this asymmetrical concept rests on classic foundations that will ensure its timelessness.

Made from WETMAR BiO™ and available in True High Gloss™, Matte or Dual finish.

A new attitude, inspired by ecology, is emerging. We yearn for a return to our origins, rediscovering simple pleasures and natural beauty. The Be collection expresses that desire through shapes Nature herself could have created.

Keyword: Clinic

The bathroom is increasingly considered to be a beauty lab. With lines that express the essential and employing ultra-clean materials, Collection C subscribes to this strong trend.

The vanity contrasts the clinical rigor of steel with the tactile, almost fleshy softness of WETMAR BIO™. Cleansing products and cosmetics are exhibited on the shelves. Water pipes are left in view. Nothing is hidden: transparency is the new idea of purity.

- Brushed and mirror finish
- Invisible joints provide an extra level of refinement
- The finish on the C Collection™ is achieved through sequential sanding and polishing
- There is no chrome plating or chemicals employed
- May be combined with any Cube VCS or Ove VOVS integrated countertop
- Mirror configuration: vertical or horizontal
- 22" depth console: 24" - 60" length (610 - 1530 mm)
- 18" depth console: 20" - 42" length (514 - 921 mm)

THE C2 COLLECTION™

Keyword: Slimline

The tubular lines and minimalist style of the C2 collection create a hip, modern look for an urban environment. Thanks to its sleek structure, C2 features a small, uncluttered footprint, making it ideal for small bathrooms.

The base of the console unit is made of matte black stainless steel rungs and can be equipped with an optional storage drawer in natural walnut. In addition to being practical, the drawer adds contrast and a touch of warmth. A matching mirror with a walnut shelf and free-standing towel rack complete the collection.

C2 consoles can be combined with the WETSTYLE Element collection sinks in either the 24" or 30" sizes. These washbasins with rounded edges are available with overflow trims that feature an optional matte black finish to seamlessly integrate with the rest of the collection.

- Console with optional Walnut Natural drawer: 24" or 30" length
