PRODUCT FEATURES KEY

BATHTUB

BR	Wood bridge included, oak wenge shade standard
OD	Plug & Bathe™ integrated overflow and drain included: polished chrome, brushed nickel, satin brass, matte black, matte grey, white, or no trim
Dual	Dual finish available

SINK

O/F	Optional overflow available: polished chrome, brushed nickel, matte black, satin brass or no trim
Holes	Optional pre-drilled faucet holes: 1 hole/drain for mono faucet or 3 holes/drain for 8" c/c faucet
BR	Wood bridge included, oak wenge shade standard
Float	Compatible with the floating sink bracket system

The bathtub and sink features are written underneath each product's picture

THE PUREST FORM OF LUXURY™

With over 30 years of experience manufacturing products for the modern bathroom, WETSTYLE is shaped by a passion for design and superior quality supported by unrelenting attention to detail. Through a marriage of original design, exceptional craftsmanship and superior materials, WETSTYLE focuses on manufacturing soaking bathtubs, sinks and furniture for the contemporary bathroom environment.

WETSTYLE's new headquarters are located on the South Shore of Montreal in the cutting-edge, environmentally friendly Saint-Bruno Ecopark. The state-of-the art facility was custom-designed for expanded production capabilities, a suite of corporate offices, an extensive showroom space and a dedicated product training area for agents, sales representatives and design professionals.

The WETSTYLE furniture factory is located in Montreal's Rosemont district and employs skilled cabinet makers. All vanities and wood products are made from FSC certified woods, formaldehyde free, CARB compliant and use Low to No VOC adhesives.

WETSTYLE welcomes visitors to the refined and curated elegance of its 11,600 sq. ft. showroom, located in Saint-Bruno-de-Montarville, on Montreal's South Shore. Designed by Atelier Moderno, and recipient of the Grands Prix du Design 2020 award, the showroom is filled with distinct and intimate spaces, each highlighting an individual product. The contemporary space features non-obtrusive walls that isolate each product zone in vignette-like fashion, invoking sentiments of environments reflective of the products in use. Atmospheric lighting sets the mood of each product zone via strips and spotlights, reflecting off of a porcelain floor with marble-esque qualities that embrace the sophistication of the company's high-end, handcrafted, made-to-order products.

CRAFTSMANSHIP

Bold design, superior materials and a unique manufacturing process distinguishes WETSTYLE. Reminiscent of European workshops of a long-gone era, each product is made-to-order in Montreal, Canada, and every design is an original artisanal labor of love benefiting from meticulous attention to detail.

THE SIGNATURE WETSTYLE WOOD BRIDGE: BEFORE AND AFTER

The wood bridge provided with most WETSTYLE bathtubs and certain lavatories starts off as a rough piece of oak or walnut hardwood. First, it is cut to size and the grooves are machined. It then undergoes several steps of sanding, the last one done by hand to ensure a flawless surface. Finally, the bridge is stained to the desired color - if applicable - and treated with several coats of marine-grade sealant.

Joël DUPRAS

Furniture designer
Born in 1980

Collections:
Tulip, Déco, M and FRAME

Joël Dupras studied graphic design before joining Visu, a family business manufacturer of up-market furniture. He designs furniture lines for the bedroom, the dining room and the living room. He also developed a comprehensive expertise in designing home modular storage elements. His furniture collections are sold in over 200 stores in North America.

In 2008, Joël Dupras founded the firm Joël Dupras Designer (JDD) and created Como, a complete array of bedroom furniture for lifestyle hotels manufactured by Foliot Furniture. Como is an all-in-one ensemble comprised of a secretary, a mini bar, an audio-video entertainment center and a bed with an interchangeable headboard. It generated strong interest at the professional Hospitality Design show in Las Vegas.

Joël Dupras is wholly focused on simple shapes, balanced proportions and functionality. His minimalist approach—far from being cold—provides visual and tactile pleasures.

Patrick MESSIER

Industrial designer
Born in 1974

Collections:
Be and Couture

President of the Association of Canadian Industrial Designers from 2008 to 2010, Patrick Messier started his career at Michel Dallaire Designers. From 1996 to 2002, he contributed to various projects involving medical equipment, aircraft interiors, furniture, electronic materials and utilitarian objects. In 1999, he founded Messier Designers and in 2002 he expanded his activities to include product development strategy and graphic communication.

Since 2003, he has participated in numerous fairs and shows in Canada and abroad—New York, Washington, Tokyo, London and Paris, among others. He was also awarded several prizes, including the Gold Award of the 2004 Toronto IDEX/Neocon for Kingsey, an innovative urban bench produced by Plastiques Cascades, and the 2006 Best of Canada for Mamma, a rocking chair whose sensuous curves conquered the international press, including the austere Wall Street Journal. It should be noted that these two creations are part of the permanent collection of Musée National des beaux-arts du Québec.

Patrick Messier's approach focuses on what he calls "controlling the pheromones of aesthetics", i.e. creating objects with an allure so powerful as to trigger an irrepresible desire to possess them.

Pierre BÉLANGER

Lead Designer / Art Director
Born in 1969

Collections:
*Bauhaus, C, C2, Déco
and Mood*

For more than 30 years, Pierre Bélanger has been a guiding light of contemporary design for architects, designers and manufacturers who have gravitated to his innovative style of graphic simplicity and relevance. Backed by strong analytical skills and insatiable curiosity, Pierre has been infusing his experience into the unique designs of WETSTYLE since 2005 and for the past two years as one of the company's lead product designers, incorporating the latest design technologies and trends into a portfolio of truly innovative products.

After earning a diploma in architectural technology in 1989, Pierre began his career with Daoust Lestage, a prestigious architecture and urban design firm where he served as project manager and art director. In 1998, he founded L'Atelier Image-In before merging with Juliette Communication in 2005 to form volume2, where he has applied his design skills to the production of more than thirty corporate brand images for design and architectural firms. He was also the co-founder of the v2com newswire in 2008. Member of the Fondation CLU (2004-2010) and the Société des designers graphiques du Québec (SDGQ) since 2005, Pierre Bélanger has been a certified graphic designer (DGA) since 2012. That same year, he served as a jury member in the selection process of the Lorne C. Perry Award. Pierre's insight and expertise also earned him a "guru" invitation to the fifth edition of the 13 Gurus + Me event (2010).

HONORS

Earning its standing as a design leader in the field, WETSTYLE has been the recipient of industry awards and international recognition for product excellence.

From the breathtaking, seashell-inspired design of the Couture bathtub to the modular M Collection and the innovative Round Platter accessory, the long list of accolades touches on all spheres of the company's product offerings.

Additionally, WETSTYLE's proprietary eco-friendly material, WETMAR BiO™ was recognized in the green innovation category as the industry's first recipe for soy and mineral stone used in the fabrication of composite bath fixtures.

ADVANCED FEATURES

- 1 Slot Design Overflow
- 2 Integrated Overflow – overflow is built into tub wall, providing a cleaner look and saving installation time and related costs
- 3 3" clearance underneath the bathtub for ease of access for plumbing connections
- 4 Oak wood bridge in wenge shade included ; when applicable
- 5 Soft toe touch drain included
- 6 Plug & Bathe™ overflow and drain included
 - a Enables complete installation and serviceability of freestanding bathtubs with integrated overflow 100% from above
 - b Reduces installation time and overall cost of installation
 - c Increases installation possibilities and ease of serviceability

AN ECO - FRIENDLY CHOICE

WETSTYLE is staunchly green-minded in both its products and practices. WETSTYLE's low-energy footprint can be attributed to, among other things, the company's unique artisanal manufacturing process by which products are created almost entirely by hand from start to finish. WETSTYLE's products are hand-forged locally in Montreal, Canada, ensuring that fuel and transport costs are a fraction of volume-based manufacturers who outsource production to overseas factories. Woods used in WETSTYLE's furniture collections are harvested from renewable forestry, and the company's scrupulous efficiency in production enables a waste and scrap rate of less than 1%.

High-quality materials and timeless design ensure product longevity and durability, and ease of repair minimizes waste and energy consumption.

WETMAR BiO™

All WETSTYLE bathtubs, sinks and shower receptors are made of WETMAR BiO™. An industry first, WETMAR BiO™ is an eco-friendly thermo-insulating material made primarily from a mix of Mother Earth's natural ingredients – soy and mineral stone. WETSTYLE has pioneered a proprietary and code-compliant recipe that uses soy and vegetable extracts to replace the petrochemical-based resins in heavy use by the industry. In the spirit of Pure Design and Pure Craftsmanship, WETSTYLE is proud to offer the industry's purest and most environmentally friendly material.

Naturally stain- and bacteria-resistant and harder than acrylic, WETMAR BiO™ offers a non-slip surface, superior strength and increased heat insulation. Available in a True High Gloss™, Matte and Dual finishes and custom color finishes.

Bauhaus Collection 60" countertop sink VBXS60-O-8-SB-GA

THE BAUHAUS COLLECTION

Design: Pierre Bélanger and WETSTYLE Design Lab

Keyword: Timeless

With clean lines and rounded corners, the Bauhaus Collection introduces a modern yet timeless new collection of counter-top sinks.

These sinks are specially designed to fit the Bauhaus Collection of vanities. They are available in sizes from 24 to 60 inches wide and come in Apollo White True High Gloss™ or Matte, Matte Black or Matte Grey finish.

Bauhaus counter-top sinks are handcrafted in WETMAR BiO™, a durable, easy-to-clean eco-material.

MOOD

THE MOOD COLLECTION

Bathtub

THE MOOD COLLECTION

Design: Pierre Bélanger and WETSTYLE Design Lab

Keyword: Comfort

An invitation to dream... the Mood bathtub is based on a pair of offset ellipses resulting in a design that says fluidity and comfort. Its silhouette creates an air of relaxation in the bathroom.

In addition to its aesthetic qualities, Mood provides maximum comfort thanks to its reclining dual backs: a sitting position that is particularly conducive to reading, and a reclined option for pure relaxation. The elegant simplicity of the Mood blends seamlessly with both contemporary and traditional interiors, with its play of shapes creating a perfect balance between a well-anchored base and more refined curves. A thicker rim on one side adds to the originality of the design and also doubles as a storage shelf for body care products.

Mood is handcrafted in WETMAR BiO™, a robust, non-slip, thermo-insulating eco-material.

Available in Apollo White True High Gloss™ or Matte, Matte Black or Matte Grey finish.

THE LAB COLLECTION

Design: Pierre Bélanger and WETSTYLE Design Lab

Keyword: Pragmatic

Freshness and purity epitomize the Lab collection, a carefully studied design that meets the needs of the modern bathroom while bringing a dynamic and sensual feel to any space.

Lab bathtubs feature finely bevelled details and subtle curves. They are also intentionally inclined for the comfort of those who enjoy reading and relaxing in the bath. Designed to meet various space requirements, the bathtubs come in freestanding or wall-adjacent versions. With the freestanding option, the bath becomes a focal point in the room, and with the wall-adjacent version, a reduced footprint saves space for maximum freedom. Its wide deck is convenient for storing personal care products without clutter.

The Lab collection has several washbasins to match a variety of layouts and tastes. Models include Lab Round sinks whose curves match the collection's bathtubs and Lab Square sinks that integrate seamlessly with Stellé pedestals to form a minimalist and space-saving set.

Lab is handcrafted from WETMAR BiO™, a robust, non-slip, heat-insulating eco-material. It is available in True High Gloss™, Matte Apollo White, Matte Black or Matte Grey finish.

Textured Shower Bases

Shower bases

- DFL 6030E, White Slate
- DFL 6032E, White Concrete
- DFL 6036O, Black Slate
- DFL 6642C, Grey Concrete

THE FEEL COLLECTION

Design: WETSTYLE Design Lab

Keyword: Sensation

Created from an innovative, high-density composite material that evokes the appearance of natural stone, the Feel collection emphasizes tactile pleasures underfoot. The uniquely pleasing texture of this line of showers comes from a manufacturing process that creates the appearance of slate and concrete in high definition.

These streamlined bases are suitable for all bathroom types as they can be cut at the factory or even by the installer directly on site; a major asset when adapting to non-standard dimensions and specific configurations, such as bypassing a column.

The matte finish paired with Feel's clean, sleek look awakens the senses and heightens the experience of relaxation and rejuvenation in the shower. The collection is available in neutral shades of white, gray and black.

100% tailor-made. Your shower your way.

From the dimensions to the hue, to drain grid and texture, Feel Shower Bases can be completely customized for medium and large projects. The product design can be adapted to your sense of style and aesthetics, making it one of a kind. It is even possible to print an image directly on the base. Contact the sales team for more details.

FEEL — Textured Shower Bases

Feel shower bases can be cut on-site to fit non-standard dimensions, angled walls or to bypass a column. If only straight cuts are required, the bases can be ordered pre-cut from the factory. Model shown: DFL 6036O in Black Slate

CUTTING OPTIONS

At factory:

done at WETSTYLE's factory, the shower base can be cut to your specified size

At jobsite:

using a diamond blade, the shower bases can easily be cut by the contractor to ensure it fits the specificities of the space... almost endless possibilities

Shower base DFL 4848C, Grey Concrete
Cube shower bench STC14FS-M-5

WHY NOT FEEL IT?

REALISTIC TEXTURES

Made from composite stone using a unique moulding process that can replicate textures with incredible realism

ANTI-SLIP

The textures provide high anti-slip properties to the shower bases, combining function with aesthetics

STONE-LIKE STRENGTH

The high density of the material provides a stone-like strength to the shower bases

EASY MAINTENANCE

Antibacterial treatment certified by ISO-NPG-H (high avoidance of hydrolysis) prevents corrosion of the material

Easy to clean, no grout lines where soap scum can accumulate, simply use a mild and neutral cleaning agent

Repairable: scratches and dents can easily be repaired using a repair kit

MASS COLORATION

The material bears the same color throughout

MATCHING DRAIN COVER

The supplied drain cover matches the shower base's color and texture, for a unified look

INSTALLATION

- Quick install: save on installation time and costs versus a custom tiles-in shower tray
- One piece for reduced risk of water leaks: no seams, no joints, no grout
- No floor waterproof membrane, no hot mopping, no slope construction required
- Designed to work with standard drain rough-in
- Deck wide enough to support glass walls or rolling/swinging doors

INSTALLATION OPTIONS

Above-floor

Recessed – flush with floor

 ADA-compliant

TEXTURES AND COLORS

Black Slate

CUT-TO-SIZE TO FIT YOUR SPACE

The Feel shower bases can be cut to fit odd-size bathrooms or, for example, to work around a corner beam. Bathrooms that used to necessitate a tiled-in shower tray can now benefit from pre-cast shower bases.

FOR PROJECTS

Full customization:

is possible for 10+ unit projects: choose your color, texture and size. For color match, provide a color code or sample.

Cube Bench STC 14FS-M-5
M Collection Towel Holder M 60TH-11

THE TULIP COLLECTION

Design: Joël Dupras and WETSTYLE Design Lab

Keyword: Freshness

The highly archetypal TULIP bathtub carries a classic form into the second millennium, keeping the best of both worlds.

This journey celebrates the sensuality of spring as the first blooms burst forth from the ground, their silky petals unfurling into delicately curved tips.

Organic in inspiration, the flawlessly smooth volume shoots up into two distinct angles at each end, one rising slightly above. Opening like a tulip, an exquisite curve crowns the tub, inviting the body to become one with the form.

In True High Gloss™, Matte and Dual finishes, the TULIP lets bathers luxuriate in a celebration of nature.

COUTURE

THE COUTURE COLLECTION

Bathtub

Vessel sink

THE COUTURE COLLECTION

Design: Patrick Messier

Keyword: Refinement

Dipping one's foot into this tub is like slipping into the folds of haute couture design. The COUTURE collection induces the bather to immerse willingly in a graceful design dedicated entirely to sensual pleasure.

The bathtub and vessel sink draw their inspiration from the fluted perfection of the seashells that dot the ocean floor. The shape, a splendidly smooth interior and a gently faceted exterior, is modernity made material. In this delicate origami, the comfort of the seated position is rivalled only by that of the more pronounced slope.

The innovative spirit of this asymmetrical concept rests on classic foundations that will ensure its timelessness.

Available in True High Gloss™, Matte and Dual finishes

Keyword: versatility

The bathtubs come in models that are either perfectly rectangular or slightly tapered, and are either freestanding, mounted on a base or on legs.

They can be adapted to any bathroom configuration, with installation in the centre of the room, against a wall, in a corner, recessed against 3 walls, or in a sunken design. The edges extend up to a width of 7 in. (17.5 cm).

The sleek design of the lavatories and the vessel sinks represent a modern version of the stone washbasins still used in the French countryside.

Available in True High Gloss™ and Matte finishes

THE BE COLLECTION

Design: Patrick Messier

Keyword: Nature

A new attitude, inspired by ecology, is emerging. We yearn for a return to our origins, rediscovering simple pleasures and natural beauty. The Be collection expresses that desire through shapes Nature herself could have created.

The freestanding bathtub and vessel sinks imitate a shell of exotic fruits filled with rainwater, an impression that is enhanced by a peaked seam and fluid curves. Be provides grounds for dreams that evoke memories of nutshells sailing on childhood streams.

Contemporary design infused with organic shape—simple and sinuous.

Restore, rejuvenate, relax—Be.

All items come in True High Gloss™, Matte and Dual finishes.

THE OVE COLLECTION

Keyword: sensuality

Oval-shaped with narrow or wide edges, the bathtubs are like personal cocoons, sanctuaries from the outside world, guaranteed to alleviate your stress and wash away your worries.

Designed to be aesthetically pleasing from all angles, OVE models are ideal for bathrooms that open into adjoining bedrooms.

The lavatories and the vessel sinks come in round, elliptical or rectangular models with oval interior basins, for single or double use.

Available in Apollo White True High Gloss™ or Matte, Matte Black or Matte Grey finish.

CLOUD

THE CLOUD COLLECTION

Bathtubs

Bathtub BCLB 01-MB, Matte

THE CLOUD COLLECTION

Design: Wetstyle Design Lab

Keyword: Transition

The Cloud bath lives somewhere between the past and present; its flared shape evokes a vintage feel, while its flowing lines and solidity are rooted in the contemporary, making it the perfect match for transitional tastes.

A gently curved base gives this bathtub a distinctive style; a simple rounded base can be substituted for a more traditional look.

Cloud is handcrafted in WETMAR BiO™, a robust, non-slip, thermo-insulating eco-material. Available in True High Gloss™ or Matte finish.

Made of

Cloud — Bathtub

WAVE

THE WAVE COLLECTION

Bathtub

Bathtub BWA 01-MB, Matte

Tom Kundig Houses 2

THE WAVE COLLECTION

Design: Wetstyle Design Lab

Keyword: Fluidity

The Wave bath reflects the movement of the ocean and blends harmoniously with any bathroom. Its unique form adds a sense of style, softness and originality to the room. Comfort remains paramount, thanks to the high-back design of the tub, making it perfect for reading or relaxing.

Less than 58 inches long, Wave is a freestanding model that can easily fit in standard bathrooms measuring 5 x 8 feet.

Wave is handcrafted in WETMAR BiO™, a robust, non-slip, thermo-insulating eco-material. Available in True High Gloss™ or Matte finish.

STRAIGHT

THE STRAIGHT COLLECTION

Bathtub

Bathub BST 01-PC, True High Gloss™
Vanity Frame Linea Collection, Walnut Natural No Calico

THE STRAIGHT COLLECTION

Design: Wetstyle Design Lab

Keyword: Simplicity

The Straight bath evokes simplicity, softness and purity, thanks to its sleek lines and rounded edges. These elements come together to create a sensation of lightness, as if Straight were born to become one with its surroundings.

Straight's dimensions are ideal for small spaces and its rectangular, contemporary look, softened by its curves, lends an elegant feel to today's bathrooms. The bathtub's subtly inset base adds an extra touch of refinement.

Straight is handcrafted in WETMAR BiO™, a robust, non-slip, thermo-insulating eco-material available in True High Gloss™ or Matte finish.

DÉCO

THE DÉCO COLLECTION

Lavatories

Vanity Déco Collection 30" - Mozambique Facade and Black Matte
Lavatory Déco Collection 30" - 7/16" height - VDCOXS Series

THE DÉCO COLLECTION

Design: Joël Dupras, Pierre Bélanger and WETSTYLE Design Lab
Keyword: Elegance

The sleek look and rounded corners of Déco washbasin's interior create a sense of gentle tranquility while washing up.

Although these sinks are part of the Déco collection, they can be ordered separately. Their unique design allows the drain to be recessed for a more polished look. They are available in two thicknesses, two inches (S) or ultra thin (XS), and come in True High Gloss™ or Matte finish.

Déco washbasins are handcrafted in WETMAR BiO™, a durable, easy-to-clean eco-material.

THE FLOATING SINK BRACKET SYSTEM

Keyword: Purist

We believe true relaxation is only attained in a clutter-free environment. The WETSTYLE FLOATING SINK BRACKET SYSTEM enables WETSTYLE lavatory style sinks to be wall mounted, precluding the need for a vanity or full console. Exceptionally strong yet easy to install, this pure stainless steel system allows the sink to float free of all external distraction. With or without decorative stainless steel trim.
